

JENNIFER M. GRANHOLM
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF STATE POLICE
LANSING

COL. PETER C. MUNOZ
DIRECTOR

June 2007

Law Enforcement Agencies:

This is one of the periodic updates I send you on the various Criminal Justice Information Center (CJIC) initiatives that affect you.

The Department of State Police (MSP) has undergone a reorganization that involves CJIC and your program contacts. CJIC has been divided into two areas. I will continue to direct the following programs:

- Sex Offender Registry and Enforcement
- Uniform Crime Reporting – MICR
- Handgun Licenses
- Concealed Pistol Licenses
- Traffic Crash Reporting
- Automated Incident Capture (MSP's internal records management system)
- Freedom of Information
- MiCJIN Portal

Captain Charles Bush has been assigned to direct the following programs:

- Law Enforcement Information Network (LEIN)
- Criminal History Records
- Automated Fingerprint and Identification System (AFIS)
- ISERVICES
- Statewide Network of Agency Photos (SNAP mug shots)
- Control Terminal Security
- CJIS Policy Council

Together, we are still known as the Criminal Justice Information Center and will work closely with one another. The function and vision of CJIC remain intact – to provide the criminal justice community with the most current, accurate, and immediately accessible information possible.

Following are other updates that will be of interest to you:

Sex Offender Registry –New Application – If your agency has not submitted an application for access to the new Sex Offender Registry (SOR) System it is imperative that the MiCJIN application be submitted by August 1, 2007. If you currently access the MiCJIN portal for other applications, you must still submit a revised application to be able to access the new SOR system. Once programming is complete, this will be the only access to the Sex Offender Registry. SOR requirements and responsibilities for agencies mandated in Public Act 295 of 1994, Michigan Sex Offender Registration Act, cannot be waived due to the inability of an agency to access the new system. To obtain an application send an e-mail with the word "Application" in the subject line to micjinmail@michigan.gov, or call Mr. Bill Timmer at 517-336-2011.

Sex Offender Enforcement Coordination – It is vital that we partner on this important activity. CJIC now maintains not only the Sex Offender Registry (SOR), but coordinates SOR enforcement issues. SOR is seeking one contact or liaison, generally a police officer, within each law enforcement agency to serve as the SOR point of contact. This person will be encouraged to follow up on tip information from the SOR tip

hotline or the public registry web site and subscribe to a LISTSERV where SOR enforcement questions, practices, and policies will be discussed statewide. This will include, but not be limited to, information on the new computer application above as well as the recently enacted federal Adam Walsh Act. Agencies will be invited to participate in SOR sweeps and document success of compliance and non-compliance in this highly visible program. Information packets detailing this process will be mailed to agencies soon. For more information, please contact SOR Statewide Coordinator, Sgt. Michele Hernandez at HernanM@michigan.gov or at 517-322-1378.

LEOKA / MICR Re-write Project – All jurisdictions reporting Law Enforcement Officers Killed or Assaulted (LEOKA) data will soon need to report this data electronically either through the MiCJIN portal or through agencies' own records management systems. The MICR computer application is being rewritten from a mainframe-based program to a server-based environment. When the program is completed, LEOKA data will be captured as part of the MICR 1 record and the MICR 5 record. The records layout will not be expanded for this to occur. Instead the layout will include the replacement of three of the victim to offender relationship codes. The FBI now only requires two. The new format to give your vendors for programming changes will be sent this summer with a target implementation date of six months. Contact Ms. Theresa Page at PageTM@michigan.gov or 517-322-1424 if you have any questions on this initiative.

Concealed Pistol License Renewals – Last year HB 4042 was enacted wherein an applicant who is applying for a renewal of a concealed pistol license is not required to have fingerprints taken again. This only applies if the applicant's fingerprints have been submitted to and maintained by the Department of State Police for ongoing comparison with the Automated Fingerprint Identification System. The Michigan State Police began capturing applicant fingerprints on January 1, 2006. Therefore, only renewal applicants who have had fingerprints taken and stored after this date will be eligible. Renewal applicants will not be exempt from the fingerprinting requirement unless the last time they have been fingerprinted has been after January 1, 2006. The CCW computer application that some county clerks use to enter and retrieve CCW information will be used to capture this information. The use of this system will become vital as we all begin dealing with these types of renewals. If your county is not yet using the automated CCW system please encourage your clerk to submit an application. To obtain an application send an e-mail with the word "Application" in the subject line to micjinmail@michigan.gov, or call Mr. Bill Timmer at 517-336-2011. For more information on the CCW system, contact Ms. Deb Smith at SmithDe@michigan.gov or 517-322-5518.

Statutes Disqualifying from Concealed Pistol Licenses (CPL) – Many statutes prohibit a person from holding a CPL. The enclosure lists these statutes. It is critical that these misdemeanor arrests be reported to CJIC. If these arrests are not reported, CPL and NICS checks will not hit on these offenses and, in turn, prohibit unqualified individuals from obtaining a CPL.

State and Federal Firearm Prohibitor Training – The Michigan State Police obtained a grant through the Michigan Commission on Law Enforcement Standards to educate law enforcement personnel who issue Licenses to Purchase Pistols (LTP) and CPL, impact department policies, and conduct weapons related investigations. Upcoming 2007 training dates are: September 14, at Kalamazoo Community College, September 21, at Kirkland Community College, September 25, at Oakland Community College, and October at the State Police Training Academy; please stay tuned for the date in October. This is an eight hour course and is offered FREE. Register for one of the classes by calling Mr. Jim Tieman at 734-395-0199.

Automated Pistol Registration (APRS) – As stated in a previous letter, CJIC has an automated system, APRS, for registering pistols electronically. This system has several advantages including one-time keying and automatic LEIN checks. By using APRS, pistol registration information is immediately available to every law enforcement agency within Michigan. This service is free if you have a LEIN terminal. Please examine your licensing procedures and if you are not using the APRS system, contact Ms. Deb Smith at SmithDe@michigan.gov or 517-322-5518 for more information.

Chief or Sheriff

Traffic Crash Electronic Reporting – Consistent with my goal of getting real time, accurate data back to you, a means is now available to submit electronic crash data. Seven vendors are currently testing or submitting data for local agencies. I encourage you to begin an initiative of your own as it will greatly improve the data we give back to you via our web sites. If you are interested in learning more, contact Ms. Teresa Beck at BeckTK@michigan.gov or 517-322-1952.

I appreciate your support on these initiatives. Together we can make the records you use every day the most complete, accurate, and timely. Remember to check our web site at www.michigan.gov/msp. Click on the link to the Criminal Justice Information Center under Specialized Divisions for additional information.

Sincerely,

A handwritten signature in black ink that reads "Diane L. Sherman". The signature is fluid and cursive, with the first name "Diane" and last name "Sherman" clearly legible.

DIANE L. SHERMAN, DIRECTOR
Criminal Justice Information Center
Statistical Records Division

Enclosure

Enclosure 1

Enumerated 90 and 93 Day Misdemeanors in the CCW Law that
Exempt Individuals from Applying for a Concealed Pistol License

Punishable by 90 Days

MCL

750.167	Disorderly person
750.228	Failure to have a pistol inspected
750.229	Accepting a pistol in pawn
750.223	Illegal sale of a firearm or ammunition
750.232	Failure to register the purchase of a firearm or a firearm component
750.232a	Improperly obtaining a pistol, making a false statement on an application to purchase a pistol, or using false identification to purchase a pistol
750.234d	Possessing a firearm on prohibited premises
750.234e	Brandishing a firearm in public
750.234f	Possession of a firearm by an individual less than 18 years of age
750.235a	Parent of a minor who possessed a firearm in a weapon free zone
752.862	Careless, reckless, or negligent use of a firearm resulting in property damage
752.863a	Reckless discharge of a firearm

Punishable by 93 Days or more, if indicated

MCL

257.625	Drunk Driving (Second Offense) - NOTE First Offense is 93 Days
257.626	Reckless Driving
324.81134	Operating ORV under the influence (second or subsequent offense) NOTE: First offense is 93 days
324.82127	Operating a snowmobile under the influence with <u>prior conviction</u>
324.80176	Operating a vessel under the influence, second or subsequent offense. NOTE: First Offense is 93 days
722.677	Displaying sexually explicit materials to minors
750.81	Assault or domestic assault
750.115	Entering without breaking
750.233	Intentionally aiming a firearm without malice
750.237	Possession of a firearm while under the influence of intoxicating liquor or drug – NOTE penalties start at 93 days
750.237a	Weapon free school zone violation – first offense is 93 days. Penalties increase for subsequent violations
257.625	Operating under the influence – NOTE penalties start at 93 days.
257.625a	Refusal of commercial vehicle driver to submit to a chemical test
257.625m	Operating a commercial vehicle with alcohol content - NOTE penalties start at 93 days
259.185	Operating an aircraft under the influence - NOTE penalties start at 93 days
324.81134	Operating an ORV under the influence - NOTE penalties start at 93 days
324.81135	Operating an ORV having consumed controlled substance - NOTE penalties start at 93 days
462.353	Operating a locomotive under the influence - NOTE penalties start at 93 days
750.174	Embezzlement - NOTE penalties start at 93 days
750.218	False pretenses - NOTE penalties start at 93 days
750.356d	Retail fraud - NOTE penalties start at 93 days
750.535	Receiving stolen property - NOTE penalties start at 93 days
